

L I S T A

articolelor științifice aparute în reviste ISI din strainatate in anul 2013 (FI>0.5)

1. Chaplin, W. J.; Basu, S.; Huber, D.; Serenelli, A.; Casagrande, L.; Silva Aguirre, V.; Ball, W. H.; Creevey, O. L.; Gizon, L.; Handberg, R.; Karoff, C.; Lutz, R.; Marques, J. P.; Miglio, A.; Stello, D.; **Suran, M. D.; Pricopi, D.**; Metcalfe, T. S.; Monteiro, M. J. P. F. G.; Molenda-Zakowicz, J.; Appourchaux, T.; Christensen-Dalsgaard, J.; Elsworth, Y.; Garcia, R. A.; Houdek, G.; Kjeldsen, H.; Bonanno, A.; Campante, T. L.; Corsaro, E.; Gaulme, P.; Hekker, S.; Mathur, S.; Mosser, B.; Regulo, C.; Salabert, D.,
Asteroseismic fundamental properties of solar-type stars observed by the NASA Kepler Mission
The Astrophysical Journal Supplement, Volume 210, Issue 1, article id. 1, 22 pp. (2014)
DOI: 10.1088/0067-0049/210/1/1
Impact Factor: 16.238
2. Birlan, M.; **Nedelcu, D. A.; Popescu, M.**; Vernazza, P.; Colas, F.; Kryszczyńska, A.
Spectroscopy and surface properties of (809) Lunda
Monthly Notices of the Royal Astronomical Society, Advance Access. 9 pp., (2013)
DOI: 0.1093/mnras/stt1869
Impact Factor: 5.521
3. Mierla, M.; Seaton, D. B.; Berghmans, D.; **Chifu, I.**; De Groof, A.; Inhester, B.; Rodriguez, L.; Stenborg, G.; Zhukov, A. N., *Study of a Prominence Eruption using PROBA2/SWAP and STEREO/EUVI Data*, Solar Physics **286**, pp. 241-253 (2013)
DOI: 10.1007/s11207-012-9965-0
Impact Factor: 3.256
4. Calinoiu D., Paulescu M., Ionel I., Stefu N., Pop N., **Boata R.**, Pacurar A., Gravila P., Paulescu E., Trif-Tordai G., *Influence of aerosols pollution on the amount of collectable solar energy*. Energy Conversion and Management, **70**, pp. 76-82 (2013)
Impact Factor: 3.075
5. Vaduvescu, O.; Birlan, M.; Tudorica, A.; **Popescu, M.**; Colas, F.; Asher, D. J.; Sonka, A.; Suci, O.; Lacatus, D.; Paraschiv, A.; Badescu, T.; Tercu, O.; Dumitriu, A.; Chirila, A.; Stecklum, B.; Licandro, J.; **Nedelcu, A.**; Turcu, E.; Vachier, F.; Beauvalet, L.; Taris, F.; Bouquillon, L.; Pozo Nunez, F.; Colque Saavedra, J. P.; Unda-Sanzana, E.; Karami, M.; Khosroshahi, H. G.; Toma, R.; Ledo, H.; Tyndall, A.; Patrick, L.; Föhring, D.; Muelheims, D.; Enzian, G.; Klaes, D.; Lenz, D.; Mahlberg, P.; Ordenes, Y.; Sendlinger, K.
739 observed NEAs and new 2-4 m survey statistics within the EURONEAR network
Planetary and Space Science, **85**, p. 299-311, (2013)
DOI: 10.1016/j.pss.2013.06.026
Impact Factor: 2.245
6. Pop N., Pacurar A., **Boata R.**, Gravila P, Paulescu M., *Assessment of beam solar irradiance using parametric modeling*. International Journal of Green Energy, (2013)
DOI: 10.1080/15435075.2013.829478.
Impact Factor: 2.069
7. **Roman, R.; Szücs-Csillik, I.**
Generalization of Levi-Civita regularization in the restricted three-body problem
Astrophysics and Space Science, Online First, **348** (2013)
DOI: 10.1007/s10509-013-1628-6
Impact Factor: 2.064

8. **Pop, Alexandru;** Vamoş, Călin

Orbital period modulation of the eclipsing binary system ER Vulpeculae: Real or not?

New Astronomy, **23**, p. 27-35 (2013)

DOI: 10.1016/j.newast.2013.02.003

Impact Factor: 1.850

9. **Cucu-Dumitrescu, C.**

A Simple Method of Determining Cloud-Masks and Cloud-Shadow-Masks From Satellite Imagery

Geoscience and Remote Sensing Letters, IEEE, Issue: 99, pp. 1-5 (2013)

Impact Factor: 1.823

10. Vaduvescu, O.; **Popescu, M.**; Comsa, I.; Paraschiv, A.; Lacatus, D.; Sonka, A.; Tudorica, A.; Birlan, M.; Suciuc, O.; Char, F.; Constantinescu, M.; Badescu, T.; Badea, M.; Vidican, D.; Opriseanu, C.

Mining the ESO WFI and INT WFC archives for known Near Earth Asteroids. Mega-Precovery software

Astronomische Nachrichten, **334**, p.718-728 (2013)

DOI: 10.1002/asna.201211720

Impact Factor: 1.399

11. **Constantin, D.R.**

Test of relativity: Determination of Mercury's apsidal motion excess using transit photographic data

Astronomische Nachrichten, **334**, p. 956-959, (2013)

DOI: 10.1002/asna.201211969

Impact Factor: 1.399

12. Octavian Cristea, Paul Dolea, **V. Turcu**, Radu Dănescu

Long baseline stereoscopic imager for close to Earth objects range measurements

Acta Astronautica, **90** (2013), Issue 1, 41 – 48

Impact factor: 0.701
